Latest Pricing News

On 1st October 2010, Ordnance Survey announced major changes to the Pricing and Licensing Agreements that they extend to Licensed Partners such as ourselves.

The big change is that the cost of Ordnance Survey data for areas greater than 25 hectares has been dramatically reduced. This brings our pricing in line with Ordnance Survey's own direct pricing.

We would therefore welcome the opportunity to speak with Ordnance Survey data users, irrespective of size, to discuss how these changes can save you money and also how our increased range of products might benefit you.

Please call our sales office on 01707 663090 for further information.

Registration and view charges (Latitude Mapping Portal)

In order to register for the Latitude Mapping Portal, a registration charge of £1.50 + VAT must be paid via the World Pay credit/debit card site. This is a one-off registration charge to cover the administration of account set up and proof of registrants' commitment and ability to pay all OS view charges and any map or data purchases.

Every time Latitude Mapping and our customers view Ordnance Survey mapping a set royalty payment is due to Ordnance Survey. Whenever the results of a location search are displayed on screen a 75p charge is applied – this allows you to view up to 36 hectares of large-scale mapping. If you wish to switch on an additional 36 hectares of data (for larger sites) this is possible on our site but would incur a further charge of 75p + VAT. View charges are subject to change.

OS MasterMap in dxf/dwg/shp format

Our new pricing structure means that for orders of over 25 hectares prices are now considerably cheaper than previously charged!
